SECTION D

INDEX TO VOLUME 27

Authors

Abbott, D. P.—See Berrill, N. J.

Arnason, T. J., Irwin, R. L., and Spinks, J. W. T.—Some effects of P^{32} on the development of *Drosophila*, 186.

Basir, M. A.—A redescription of *Cephalobellus brevicaudatum* (Leidy, 1851) Christie, 1933 (Nematoda), with comments on other species of the genus *Cephalobellus*, 31.

Berrill, N. J. and Abbott, D. P.—The structure of the ascidian, *Pycnoclavella stanleyi* n.sp., and the nature of its tadpole larva, 43.

Chapman, D. G., Gluck M., Common, R. H., and Maw, W. A.—The influence of gonadal hormones on the serum vitamin A of the immature pullet, 37.

————, Hanson, A. A., Common, R. H., and Maw, W. A.—The effect of gonadal hormones on liver nucleic acids in the immature pullet, 200.

Coffin, C. C., Hayes, F. R., Jodrey, L. H., and Whiteway, S. G.—Exchange of materials in a lake as studied by the addition of radioactive phosphorus, 207.

Common, R. H.—See Chapman, D. G.

Crichton, V.—See Peterson, R. L.

Dorchester, J. E. C.—See Hoar, W. S.

Fraser, F. C.—The effect of vitamin A on hereditary hyperkeratosis in the mouse, 179.

Gluck, M.—See Chapman, D. G.

Graham, J. M.—Some effects of temperature and oxygen pressure on the metabolism and activity of the speckled trout, *Salvelinus fontinalis*, 270.

Hanson, A. A.—See Chapman, D. G.

Hayes, F. R.—See Coffin, C. C.

Heller, A. F.—Parasites of cod and other marine fish from the Baie de Chaleur region, 243.

Hoar, W. S. and Dorchester, J. E. C.—The effect of dietary fat on the heat tolerance of goldfish (*Carassius auratus*), 85.

Irwin, R. L.—See Arnason, T. J.

Jodrey, L. H.—See Coffin, C. C.

Jowsey, J. R.—See O'Neil, J. B.

Judd, W. W.—The proventricular region of *Tetraopes tetraophthalmus* Forst. (Coleoptera: Cerambycidae), 195.

Kearns, C. W.—See Picard, J. P.

Lee, C. C.—See O'Neil, J. B.

Macklin, C. C.—The two types of epithelium of the finest bronchioles of the albino mouse as revealed by supravital silverization, 50.

Maw, W. A.—See Chapman, D. G.

Morrison, F. O. and Oliver, W. F.—The distribution of radioactive arsenic in the organs of poisoned insect larvae, 265.

Munro, J. A.—Studies of waterfowl in British Columbia. Baldpate, 289. Green-winged teal, 149.

Nicol, J. A. C.—The Weigert-Pal method for paraffin-embedded material. I. Bulk staining and staining of paraffin sections, 1. 2. Decalcification of material containing bone, 4.

Oliver, W. F.—See Morrison, F. O.

O'Neil, J. B., Jowsey, J. R., Lee, C. C., and Spinks, J. W. T.—Distribution of P^{32} in chick embryos, 223.

Peterson, R. L. and Crichton, V.—The fur resources of Chapleau District, Ontario, 68.

Picard, J. P. and Kearns, C. W.—Analysis of the essential structural features of DDT by a study of the toxicity of closely related compounds to roaches and to houseflies, 59.

Rilett, R. O.—The biology of *Cephalonomia waterstoni* Gahan, 93. The biology of *Laemophloeus ferrugineus* (Steph.), 112.

Salt, R. W.—A key to the embryological development of *Melanoplus bivittatus* (Say), *M. mexicanus mexicanus* (Sauss.), and *M. packardii* Scudder, 233. Water uptake in eggs of *Melanoplus bivittatus* (Say), 236.

Spinks, J. W. T.—See Arnason, T. J.; O'Neil, J. B.

Walker, E. M.—On the anatomy of *Grylloblatta campodeiformis* Walker. 5. The organs of digestion, 309.

Westman, C. B.—See Westman, J. R.

Westman, J. R. and Westman, C. B.—Population phenomena in certain game fishes of Lake Simcoe, Ontario, and some effects upon angling returns. Part I. The smallmouth bass, *Micropterus dolomieu* Lacépède, 7.

Whiteway, S. G.—See Coffin, C. C.

SECTION D

INDEX TO VOLUME 27

Subjects

Acids, Liver nucleic, Effect of gonadal hormones on, in pullet, 200.

Anatomy of *Grylloblatta campodeiformis.* Organs of digestion, 309.

Angling returns in Lake Simcoe, Ontario, as affected by population phenomena in smallmouth bass, 7.

Arsenic, Radioactive, in organs of poisoned insect larvae, 265.

Ascidian(s), Structure of *Pycnoclavella stanleyi* and nature of its tadpole larva, 43.

Baie de Chaleur region, Parasites of cod and other marine fish from, 243.

Baldpate in British Columbia, 289.

Bass, Smallmouth, in Lake Simcoe, Population phenomena in, and effects on angling returns, 7.

Biology
of *Cephalonomia waterstoni,* 93.
of *Laemophloeus ferrugineus,* 112.

Bone in material to be stained by Weigert-Pal method, Decalcification of, 4.

British Columbia,
Baldpate in, 289.
Green-winged teal in, 149.

Bronchioles of albino mouse, Two types of epithelium of, 50.

Carassius auratus, Effect of dietary fat on heat tolerance of, 85.

Cephalobellus
Comments on various species of, 31.
Redescription of *C. brevicaudatum* (Leidy, 1851) Christie, 1933, 31.

Cephalonomia waterstoni, Biology of, 93.

Chapleau District, Ontario, Fur resources of, 68.

Chick embryos, Distribution of P^{32} in, 223.

Cockroaches, Toxicity of DDT related compounds to, in analysis of DDT, 59.

Cod, Parasites of, from Baie de Chaleur region, 243.

Coleoptera: Cerambycidae, Proventricular region of *Tetraopes tetraophthalmus,* 195.

DDT, Analysis of structural features of, 59.

Decalcification of material containing bone for staining by Weigert-Pal method, 4.

Diet(s), Effect of dietary fat on heat tolerance of goldfish, 85.

Digestion, Organs of, of *Grylloblatta campodeiformis,* 309.

Drosophila, Effects of P^{32} on the development of, 186.

Eggs of *Melanoplus bivittatus,* Water uptake in, 236.

Embryological development of *Melanoplus bivittatus, M. mexicanus mexicanus,* and *M. packardii,* Key to, 233.

Embryos, Chick, Distribution of P^{32} in, 223.

Epithelium of bronchioles of albino mouse, Two types of, 50.

Fat, Dietary, Effect of, on heat tolerance of goldfish, 85.

Fish(es)
Effect of dietary fat on heat tolerance of goldfish, 85.
Parasites of cod and other marine fish, 243.
Population phenomena in smallmouth bass in Lake Simcoe, Ontario, and effects on angling returns, 7.

Fly, See Housefly.

Fowl, See Waterfowl.

Fur resources of Chapelau District, Ontario, 68.

Goldfish, Effect of dietary fat on heat tolerance of, 85.

Gonadal hormones
Effect on liver nucleic acids in pullet, 200.
Influence of, on serum vitamin A of pullet, 37.

Grylloblatta campodeiformis, Organs of digestion of, 309.

Heat tolerance of goldfish, Effect of dietary fat on, 85.

Hen(s), See Pullet.

Hereditary hyperkeratosis in mice, Effect of vitamin A on, 179.

Hormones, Gonadal
Effect of, on liver nucleic acids in pullet, 200.
Influence of, on serum vitamin A of pullet, 37.

Houseflies, Toxicity of DDT related compounds to, in analysis of DDT, 59.

Hyperkeratosis, Hereditary, in mice, Effect of vitamin A on, 179.

Insect(s), Radioactive arsenic distribution in organs of poisoned larvae of, 265.

Laemophloeus ferrugineus, Biology of, 93.

Lake, Exchange of materials as affected by radioactive phosphorus, 207.

Lake Simcoe, Ontario, Population phenomena in smallmouth bass in, and effects on angling returns, 7.

Larva(e)
of poisoned insects, Distribution of radioactive arsenic in organs of, 265.
Tadpole, of *Pycnoclavella stanleyi*, Nature of, 43.

Liver nucleic acids, Effect of gonadal hormones on, in pullet, 200.

Melanoplus
Key to embryological development of *M. bivittatus*, *M. mexicanus mexicanus*, and *M. packardii*, 233.
Water uptake in eggs of *M. bivittatus*, 236.

Metabolism of speckled trout, Effects of temperature and oxygen pressure on, 270.

Micropterus dolomieu, See Smallmouth bass.

Mouse
Albino, Two types of epithelium of bronchioles of, 50.
Effect of vitamin A on hereditary hyperkeratosis in, 179.

Nematode(s)
Redescription of *Cephalobellus brevicaudatum* (Leidy, 1850) Christie, 1933, 31.

Oxygen pressure, Effect of, on metabolism and activity of speckled trout, 270.

Paraffin-embedded material to be stained by Weigert-Pal method
Bulk-staining and staining of sections, 1.
Decalcification of material containing bone, 4.

Parasites of cod and other marine fish, 243.

P^{32}, Distribution in chick embryos, 223.
Effects on development of *Drosophila*, 186.

Phosphorus, Radioactive, Effect on exchange of materials in a lake, 207.

Population phenomena in smallmouth bass in Lake Simcoe, Ontario, and effects on angling returns, 7.

Proventricular region of *Tetraopes tetraophthalmus*, 195.

Pullet
Effect of gonadal hormones on liver nucleic acids in, 200.
Influence of gonadal hormones on serum vitamin A of, 37.

Pycnoclavella stanleyi, Structure of, and nature of its tadpole larva, 43.

Radioactive arsenic distribution in organs of poisoned insect larvae, 265.

Radioactive phosphorus, Effect on exchange of materials in a lake, 207.

Resources, Fur, of Chapleau District, Ontario, 68.

Roach, See Cockroach.

Salvelinus fontinalis, Effects of temperature and oxygen pressure on the metabolism and activity of, 270.

Serum vitamin A of pullet, Influence of gonadal hormones on, 37.

Silverization, Use of, to reveal two types of epithelium of bronchioles of albino mouse, 50.

Smallmouth bass in Lake Simcoe, Population phenomena in, and effects on angling returns, 7.

Staining of paraffin-embedded material by Weigert-Pal method
Bulk staining and staining of sections, 1.
Decalcification of material containing bone, 4.

Supravital silverization, Use of, to reveal two types of epithelium of bronchioles of albino mouse, 50.

Tadpole larva of *Pycnoclavella stanleyi*, Nature of, 43.

Teal, Green-winged, in British Columbia, 149.

Temperature, Effect of, on metabolism and activity of speckled trout, 270.

Tetraopes tetraophthalmus, Proventricular region of, 195.

Toxicity of DDT related compounds to roaches and houseflies, in analysis of DDT, 59.

Trout, Speckled, Effects of temperature and oxygen pressure on the metabolism and activity of, 270.

Vitamin A, Effect of hereditary hyperkeratosis in mice, 179.

Vitamin(s)
Influence of gonadal hormones on serum vitamin A of pullet, 37.

Waterfowl in British Columbia
Baldpate, 289.
Green-winged teal, 149.

Water uptake in eggs of *Melanoplus bivittatus*, 236.

Weigert-Pal method for paraffin-embedded material
Bulk staining and staining of sections, 1.
Decalcification of material containing bone, 4.

ERRATUM

Page 224, line 19: 2.12 mc. should read 2.12 μc.
